```

graph TD
    A[A] --> B[B]
  
```

A diagram showing a tree structure. The root node is labeled 'A' and is enclosed in a double-bordered box. It has two children: a node labeled 'B' on the left and a node labeled 'a' on the right. Both child nodes are also enclosed in double-bordered boxes. A diagonal line crosses the top-left corner of the root node 'A'.
